

Patient involvement at the HUB

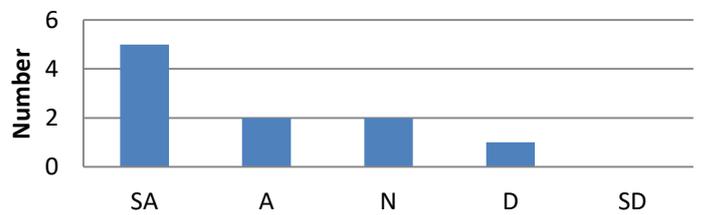

Summary Received

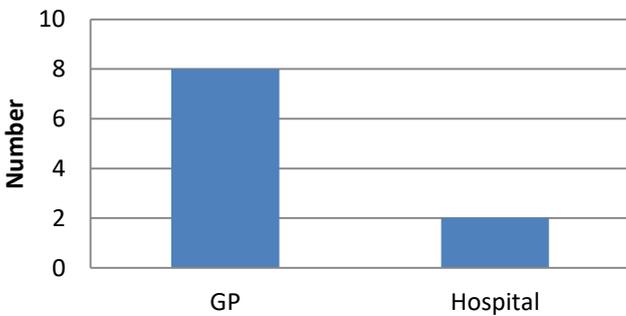

Advice Communicated to Family

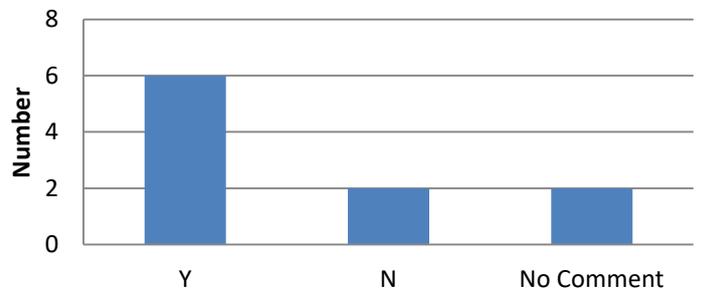

We now have more confidence in our GP'(s) Opinion?

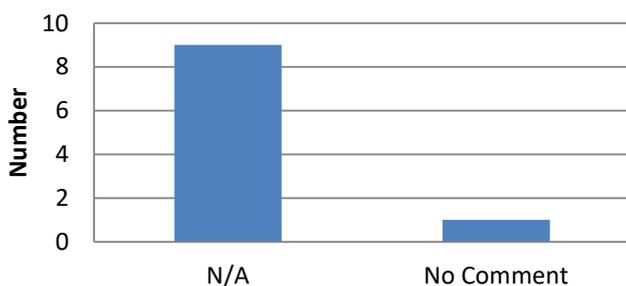

Preference for HUB review or Hospital Appointment?

Would you Recommend this Service?

Comfortable with Consultation

10/39 post questionnaires returned

X2 negative families – one not happy with GP info being presented only (history and investigations)

Other patient had expectation of an allergy diagnosis which is not a patient for the HUB and needs hospital review
